

Career Mastery Series – Creating Your Personal Career Reinvention plan

Special Offer:

First **20 participants** will receive a copy of William Heng's book –“Reinvention” FOC
Usual price S\$35.00

Synopsis

Benefits of Having a Career Plan

A career plan provides clear direction, helping you stay focused on your goals, boosting motivation and improving decision making around job opportunities and skills development. It enhances job satisfaction by aligning your work with your aspirations, enables adaptability to industry changes and supports efficient time and resource management. A well-structured plan also increases your confidence to pursue new opportunities and fosters steady career growth through continuous goal-setting and achievement.

Objectives

Will you be Where You Are Next Year?

Waiting for disruption to strike before planning a career transition is too late.

This workshop focuses on empowering participants to map out their career paths in advance ensuring they are ready to adapt and thrive when change inevitably comes

Who should attend

Anyone who is committed to **building a satisfying and rewarding career.**

Trainer's Profile

Trainer Profile: William Heng, Career Reinvention Coach.

William Heng is a dynamic trainer, coach, and speaker with over 15 years of experience in workplace skills. He has trained thousands of participants, aiding many in building rewarding careers. His passion for helping people build better lives through better careers led him to launch his book –“Reinvention—The Art of Surviving Career Disruption,” William combines career coaching with mental wellness expertise to help people build a holistic work-life balance. Over the past year, he has delivered over sixty talks on managing workplace stress. William holds a Master's in training and development, a Master's in Applied Positive Psychology, and a certification in Brain Science Coaching, making him a valuable resource for career switchers.
